Subject: Emergency Evacuation Drill – Station Square

New Emergency Evacuation Initiatives to Enhance Public Safety

Station Square and emergency services are introducing a new emergency evacuation programme designed to enhance the safety of all staff, tenants, and visitors.

With thousands of people visiting the centre daily, this initiative ensures everyone is prepared to act quickly and calmly in an emergency.

Key programme features include:

- Clearly marked evacuation routes and assembly points
- Regular emergency drills
- Awareness signage and safety materials throughout the centre
- Improved coordination with first responders
- Accessibility measures for people with disabilities

The first scheduled **evacuation drill** will take place at Station Square on **8 September 2025**. We encourage all shoppers and tenants to observe evacuation signage, follow instructions from centre staff, and participate in the awareness activities on the day.
