Dear Tenant

HEALTH AND SAFETY NOTICE

Just a quick safety reminder as we enter a new year. When you allow any contractors, employees, service providers or visitors into the building, you assume responsibilities under the Occupational Health and Safety Act. These include:

- Making sure everyone works safely
- Using competent contractors with the required documentation
- Ensuring that work undertaken by you or on your behalf poses no risk to tenants, visitors, the public or any other person
- Keeping an eye on your contractors to ensure they follow proper health and safety practices

Thanks for helping us maintain a safe environment.
